## SKILLS

- SQL
- Python
- Tableau
- Microsoft Power BI

- Microsoft Excel
- Analytical Thinking
- Problem-Solving
- Communication

- Data Management (ETL Process, and Data Transformation)
- Leadership
- EHR Systems Knowledge

## PERSONAL PROJECTS

**Dec 2024**

**Heart Failure Dashboard**

- Designed and developed an interactive Heart Failure Tableau dashboard to visualise heart failure key metrics patient outcomes, enabling data-driven decision-making.

**Nov 2024**

**Bike Sales Dashboard**

- Developed a Bike Sales Dashboard using Microsoft excel, and visualise key trends metrics, and performance.

**Oct 2024**

**Patient Waiting List Dashboard**

- Developed a Patient Waiting List Management System using Microsoft Power Bi to track and visualise patients, improving workflow efficiency.

## EXPERIENCE

**Jul/2023 – Dec 2024**

**Peer Educator**, LoveLife – Sokhulu Clinic, South Africa

- Collected and recorded vital statistics for HIV testing and counselling services and analysed survey data from 65+ respondents to identify key behaviours.
- Implemented data-driven outreach strategies, leading to 15% increase in program effectiveness and reaching underrepresented groups.
- Successfully coordinated 4+ events, tracking attendance and participant feedback, resulting in a 20% improvement in event planning and resource allocation.
- Engaged and mobilised over 205 community members in health programs, resulting in a 25% increase in participation.
